

Sparx Systems Introduces Indian Sister Company

Creswick, Australia, June 11, 2013 – [Sparx Systems](#), a leading vendor of modeling tools based on UML and related open standards, today announced the launch of its new sister company, Sparx Systems India. With this new addition, Sparx Systems is well positioned to serve the growing Indian IT services market, providing regional support and a distribution base for the company's flagship product, Enterprise Architect.

Sparx Systems India joins sister companies already established in Central Europe, South America, New Zealand, China and Japan. "This is an exciting development. We are looking forward to representing the Sparx Systems brand," said Sparx Systems India CEO Nizam Mohamed. "As the market for IT services in India has grown, there has been an increasing requirement for shorter response cycles, project governance and adaptability. As Sparx Systems Enterprise Architect is very favorably positioned to meet this need, we are especially pleased to be making this announcement today."

Sparx Systems Chief Operations Officer, Tom O'Reilly, commented that "Enterprise Architect has achieved great success worldwide with a loyal user base of over 300,000 users. With the establishment of Sparx Systems India, rapidly growing Indian markets such as resources, manufacturing, retail, telecommunications and health care now have local support to drive their future business." He added, "Given the popularity of Sparx Systems Enterprise Architect in the region, this partnership is well timed to support the growing need for business analysis, requirements management, standards development, enterprise architecture and software development."

At the upcoming Business Analysis Convention in Bangalore, attendees will have their first opportunity to meet with staff from Sparx Systems India. Mr Nizam Mohamed will be presenting at the event. Supported by the International Institute of Business Analysis (IIBA), Business Analysis Convention is being held on the 25-26th of July and brings together leaders of the business analysis community. More details can be sought from www.sparxsystems.in/ba-convention
